

PROFILE

I'm a front-end website developer. Love to code and to build something new. Fast learner, learned most of the technologies(HTML, CSS, JavaScript, React JS) from online resources.

OBJECTIVES

As a developer my goals are to join your firm and work for you. It'll be a great opportunity to work with you, definitely will learn much more from this company.

WORK EXPERIENCE

HTML and CSS

I've create some mockup sites using HTML and CSS like fast food website, Apple website clone etc. All source code in my GitHub repos.

JavaScript

I've also created so many apps using JavaScript like weather app using API, real time chat app, Text to speech, and Distance calculator using google API etc.

React

I've re-created the above JavaScript apps using the Framework/Library React Js.

SKILLS
